

# 'The Great Buffalo Hunt'

## Stage 1

## Prairie Chickens

Before you head out on the plains for a few months and have to eat buffalo hump and buffalo tongues every night, you have a powerful hankering for some prairie chickens. Let's get some and fry them up at the cabin.

Shooter begins standing at either the right table at Cowboy Port Arms or at the left table at Cowboy Port Arms. The shooter can start on the left and move right OR start on the right and move to the left. You must shoot with at least one foot behind the table in each of the three locations.

When ready say, ***"I do love prairie chickens!"***

At the buzzer retrieve shotgun and knock down shotgun targets and the two clays, shooting them at designated firing points. Knockdown targets must fall to count as hits. If you miss any flyers you can make them up on the 'make up' target when you are done with all the other targets. The timer will tell you how many you have to make up if you want to stay clean.

### Shotgun, 10+ rounds
